For immediate Release

Di-O-Matic announces the immediate availability of Facial Studio for Windows.

The most complete software for 3D head creation.

Montreal, Canada - **November 23rd, 2004** - Di-O-Matic, a leading developer of character animation software, announced today the immediate release of **Facial Studio for Windows**. This ultimate new software gives you more than 500 controls over the 3D head creation process and much more.

With **Facial Studio for Windows,** easy 3D heads creation is now available to all major 3D platforms. Supporting the **FBX** interchange file format developed by Kaydara, Facial Studio for Windows export 3D heads, including their deformation setups, to every major 3D applications including discreet 3ds max, Maxon Cinema4D, Newtek LightWave, Alias Maya, Alias MotionBuilder, and Softimage XSI.

Based on the same technology than the award-winning Facial Studio plug-in for 3ds max **Facial Studio for Windows** also offers breathtaking new features like the powerful and easy to use Photo Matching that allows you to create heads based on photos or drawings in less than 10 minutes!

With **Facial Studio for Windows** you get an exclusive artistic approach. Facial Studio is built by artists for artists.
